👤 PROFILE

Highly skilled Platform Engineer with 15 years of experience in managing and applying complex IT infrastructures. Proven ability to deliver innovative solutions aligned with business strategies. Seeking a challenging position where I can utilize my expertise to drive organizational growth and success.

📁 LATEST WORK EXPERIENCE

📅 04/2024 – PRESENT 📍 BARCELONA, SPAIN

Platform Engineer Ocado Technology

- Designed and implemented scalable infrastructure solutions for a web platform, resulting in a 30% year-over-year incidents reduction.
- Collaborated with cross-functional teams to deploy and maintain cloud-based services using tools such as ECS, Lambda, Grafana Cloud, and Sentry.
- Closely Worked with the Product and UX teams to ensure our solutions meet the users' expectations and actually help them to succeed.

📅 08/2021 – 04/2024 📍 BARCELONA, SPAIN

Lead Infrastructure Consultant Thoughtworks

- Led a team of infrastructure specialists, providing leadership and guidance to ensure the timely and accurate delivery of complex infrastructure solutions to different clients.
- Advised senior management on infrastructure strategies and best practices, resulting in cost savings and increased productivity through the implementation of innovative solutions and process improvements.

📅 10/2020 – 07/2021

📍 BUENOS AIRES, ARGENTINA

Software Engineer MTS Salesforce

- Designed and implemented automated patching systems, reducing manual maintenance time by 80% and improving system reliability and security.

📁 LATEST WORK EXPERIENCE

- Collaborated with cross-functional teams to design and automatize infrastructure provisioning and configuration management processes, leveraging technologies like Spinnaker and Terraform.

📅 03/2020 – 10/2020

DevOps Engineer Globant

- Collaborated with cross-functional teams to migrate and maintain different operating systems and internal applications for a large scale bank, leading to an increase in compliance.

📅 11/2018 – 03/2020

Site Operations Engineer Edrans

- Projected and implemented automated monitoring systems for a US Fintech company, reducing incident response time by 50% and improving system reliability.
- Led incident management efforts, coordinating with stakeholders to quickly resolve production incidents and prevent future occurrences.

📅 10/2010 – 11/2018

📍 BUENOS AIRES, ARGENTINA

Systems administrator Biblioteca Nacional Argentina

- Implemented and maintained network infrastructure to ensure optimal performance and security for over 700 internal users, plus more than 10k external users.
- Developed and executed disaster recovery plans to minimize downtime and data loss in the event of system failures.
- Evolved runtime infrastructure from mere bare-metal servers into a farm of virtual machines, leveraging high availability and fault tolerance principles.

LATEST WORK EXPERIENCE

01/2010 – 10/2010

BUENOS AIRES, ARGENTINA

IT support & operation IPv4 Networks

- Implemented new IT infrastructure projects, such as network upgrades and server migrations, resulting in increased efficiency and productivity.
- Managed daily operations of IT systems, ensuring optimal performance and security through regular maintenance and updates.
